

Multi 2 Assembly

Step 1- Attach one end the Type 4 1" portion of the Multi 2 to the canopy bridle attachment ring, using a larks head knot.

Step 2 - Attach the Dacron line portion of the Multi 2 to the non-ring attachment forward of the tail pocket, again using a larks head knot.

Step 3 - Making sure to use the pin end of the bridle. Pass the bridle through the loops in both the Type 4 and the line.

Step 4 - Pass the opposite end of the bridle (pictured with pilot chute) through the bridle loop.

Step 5 - Continue pulling the bridle through the loop until the larks head knot is tight around both pieces of the Multi 2.
